

When a customer asks a question, I will:

- turn toward the customer
- look at the customer and smile
- say *"I will get someone to help you."*

*If a customer asks where is the restroom, I will answer that question myself!

What I do for customers while busing tables:

- answer questions about the restroom
- bring condiments, salt, pepper
- pour water
- bring flatware or napkins when asked

Otherwise, I say *"I will find someone to help you"* & find a server or the manager!
