✓ Interrupting Others

Sometimes I have questions and I need answers.

- When I see that someone is busy, I will **write down** my question on my paper.

- I will leave that written question so that the person can see it.

- Then, I will go back to my work.

- They will answer my question when they are not busy.

✓ Interrupting Others

Waiting means that I will:

- Take 5 deep breaths.

- Go back to my work.

- I will check in 5 more minutes.

- They might not be ready in 5 minutes. **That is okay.**
