

Online Search Keywords

Here is a list of possible words that you could type in when searching for a job using a large online search engine. These are ideas to type in when you are asked for a "Key Word." A key word is a general word that will guide you to jobs related to that key word.

For example, if you are interested in working in an accounting firm, a good key word to search for that type of job would be "accounting." The key word, "accounting", should guide you to many jobs that have to do with accounting.
