

## **“I WANT a JOB”**

I want to get a job. To get a job, I have to get hired by an employer.

**To get hired, I will need to first:**

-  **develop a resume**
-  **write a cover letter**
-  **find references**
-  **apply for the job**

If the employer likes my resume, cover letter, and application, the employer might invite me for an interview. If I do well in the interview and if the employer thinks that I am the right person for the job, the employer might offer me a job!

That will make me feel really happy.
